

A photograph of two children working on a project. The child on the left, wearing a yellow hoodie, is using a marker to draw on a large sheet of white grid paper. The child on the right, wearing glasses and a white shirt, is also working on the project. Various colorful letters (red, green, blue) and markers are scattered on the table. A blue rectangular overlay with a dashed border is positioned over the center of the image, containing the word 'Homeschool' in a large, black, sans-serif font.

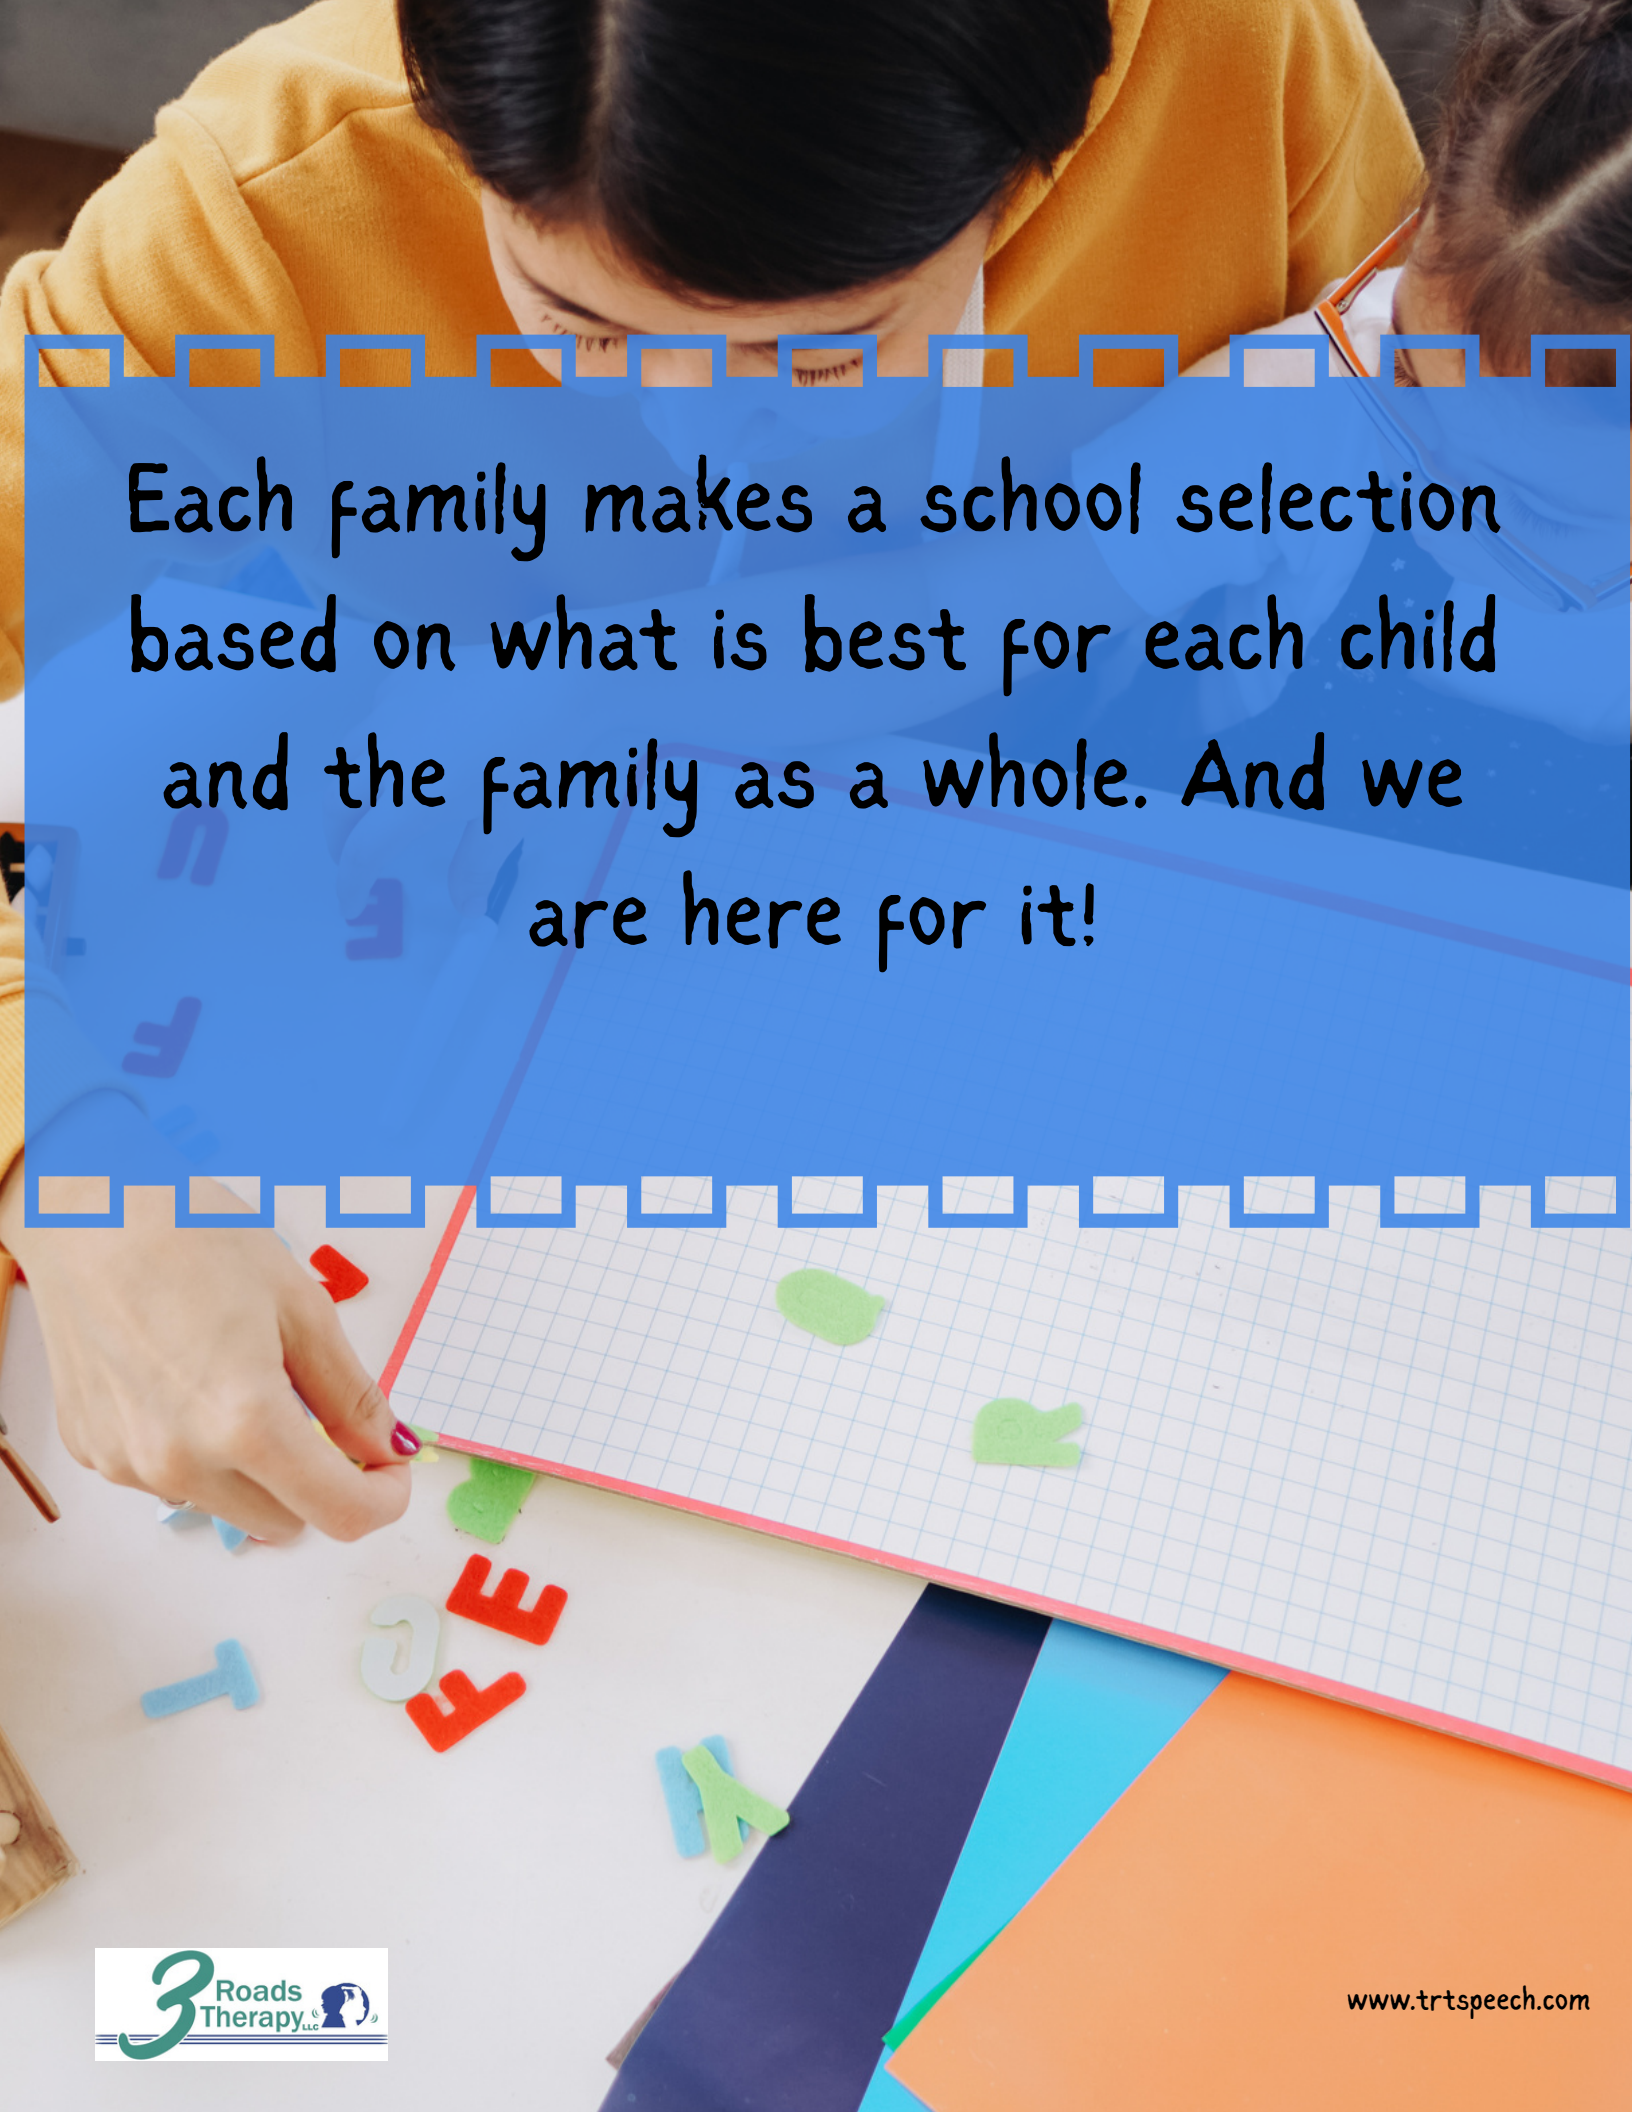

Homeschool

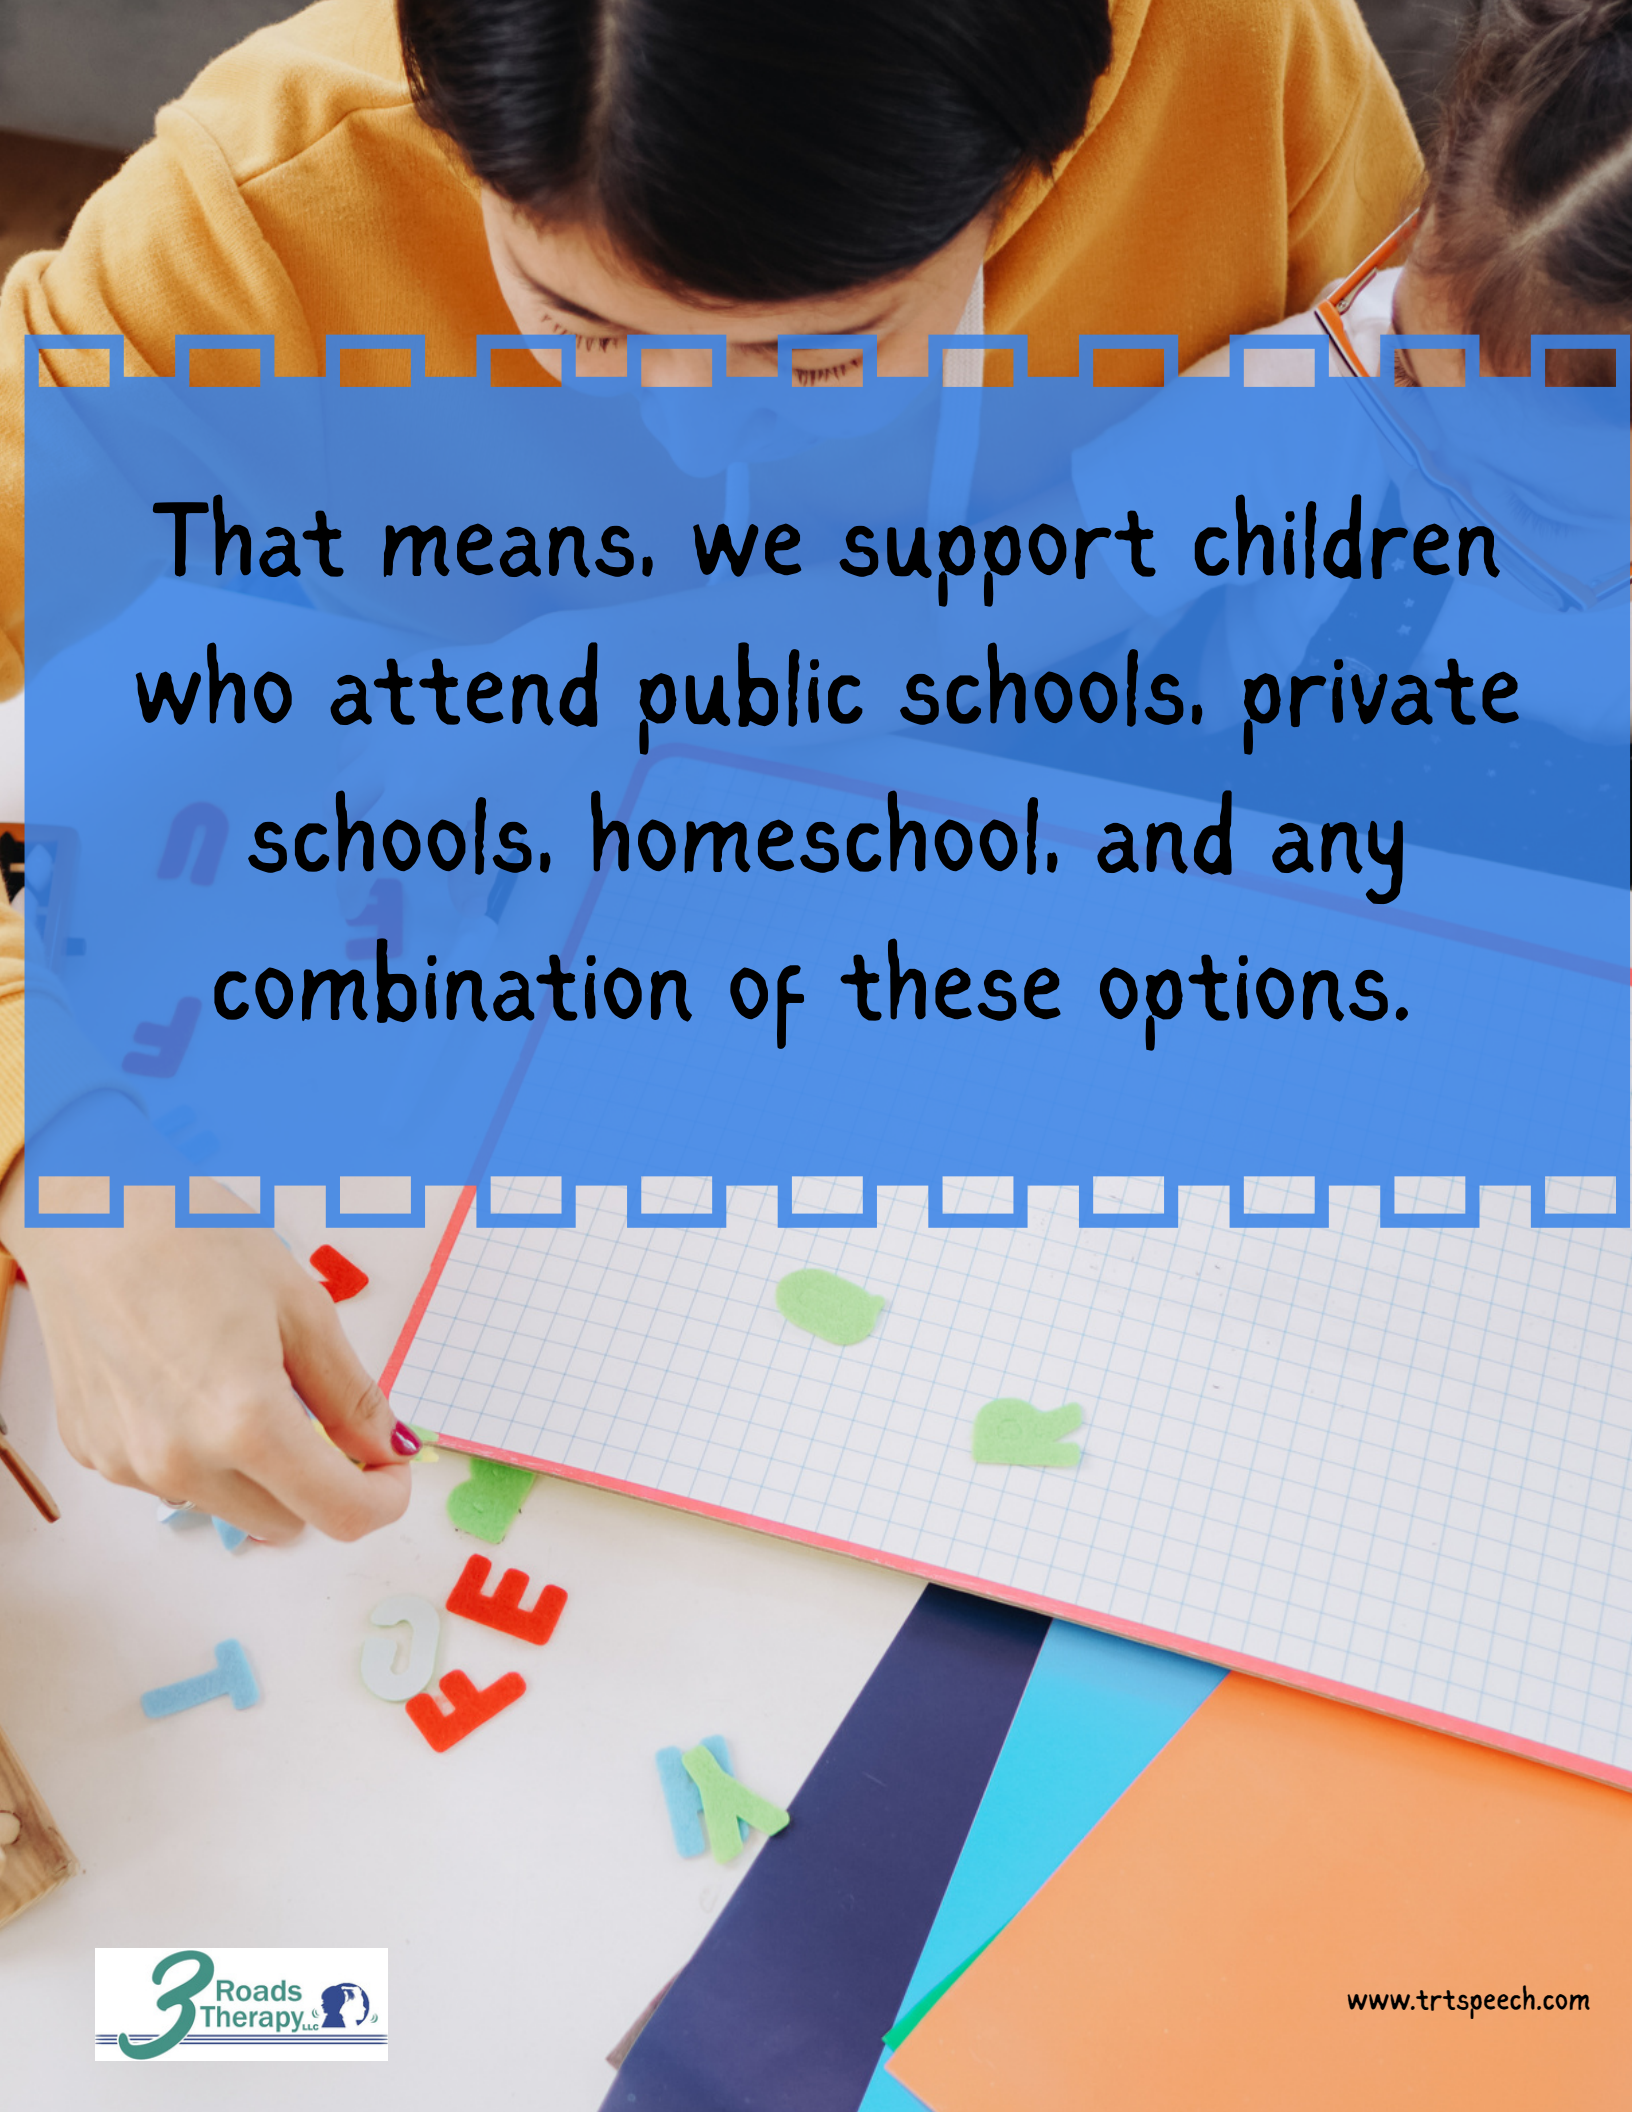

We have been covering a lot
of back-to-school
information, and we did not
want to leave out
homeschoolers!

A child with dark hair, wearing an orange long-sleeved shirt, is leaning over a table. They are working on a project that involves a sheet of white graph paper with a blue grid. The child's hands are visible, and they are using small, colorful letter tiles (red, green, blue) to spell out words. Some tiles are already on the paper, and others are scattered on the table. The background is slightly blurred, showing more of the child's work area.

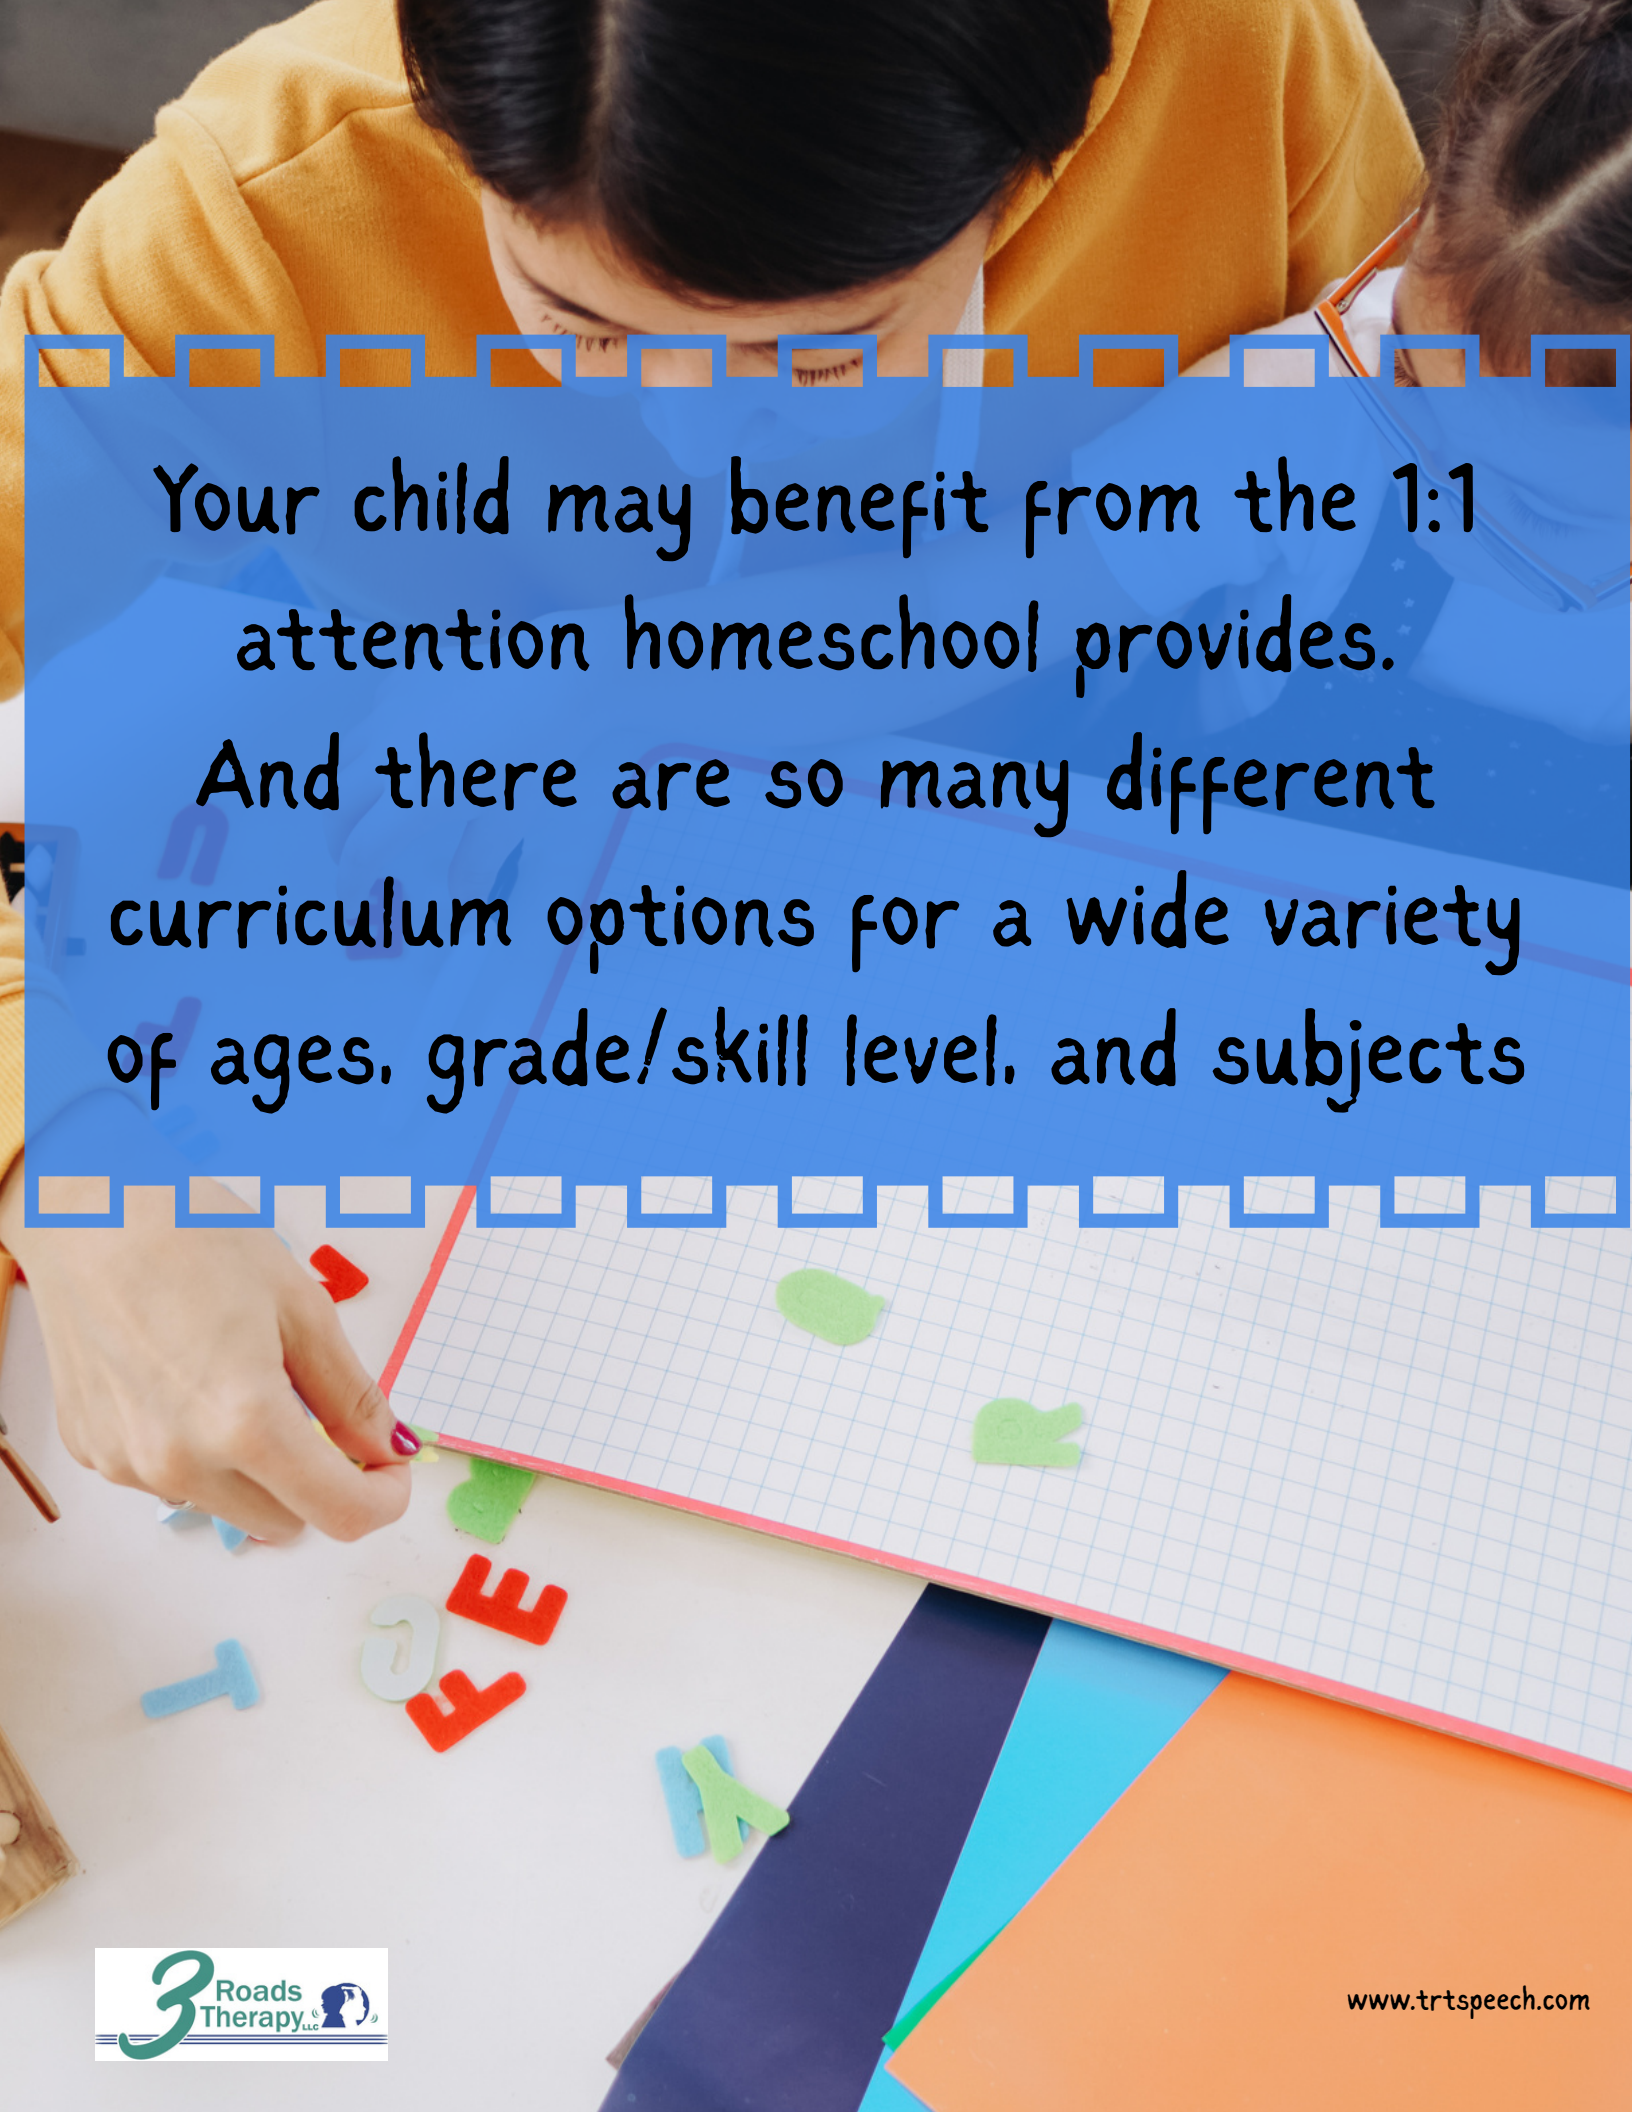

Many of the suggestions we have given
apply to ANY school setting, but each
individual setting has its own set of
challenges that you may need to help
your child work through in order to
learn.

A child with dark hair, wearing an orange hoodie, is looking down at a worksheet. The worksheet has a blue grid pattern and a pink border. There are several colorful letter cutouts (red, green, blue) scattered on the worksheet and the table. The child's hand is visible, holding a small yellow object. The background is a light-colored surface with some papers and a pencil.

Each family makes a school selection
based on what is best for each child
and the family as a whole. And we
are here for it!

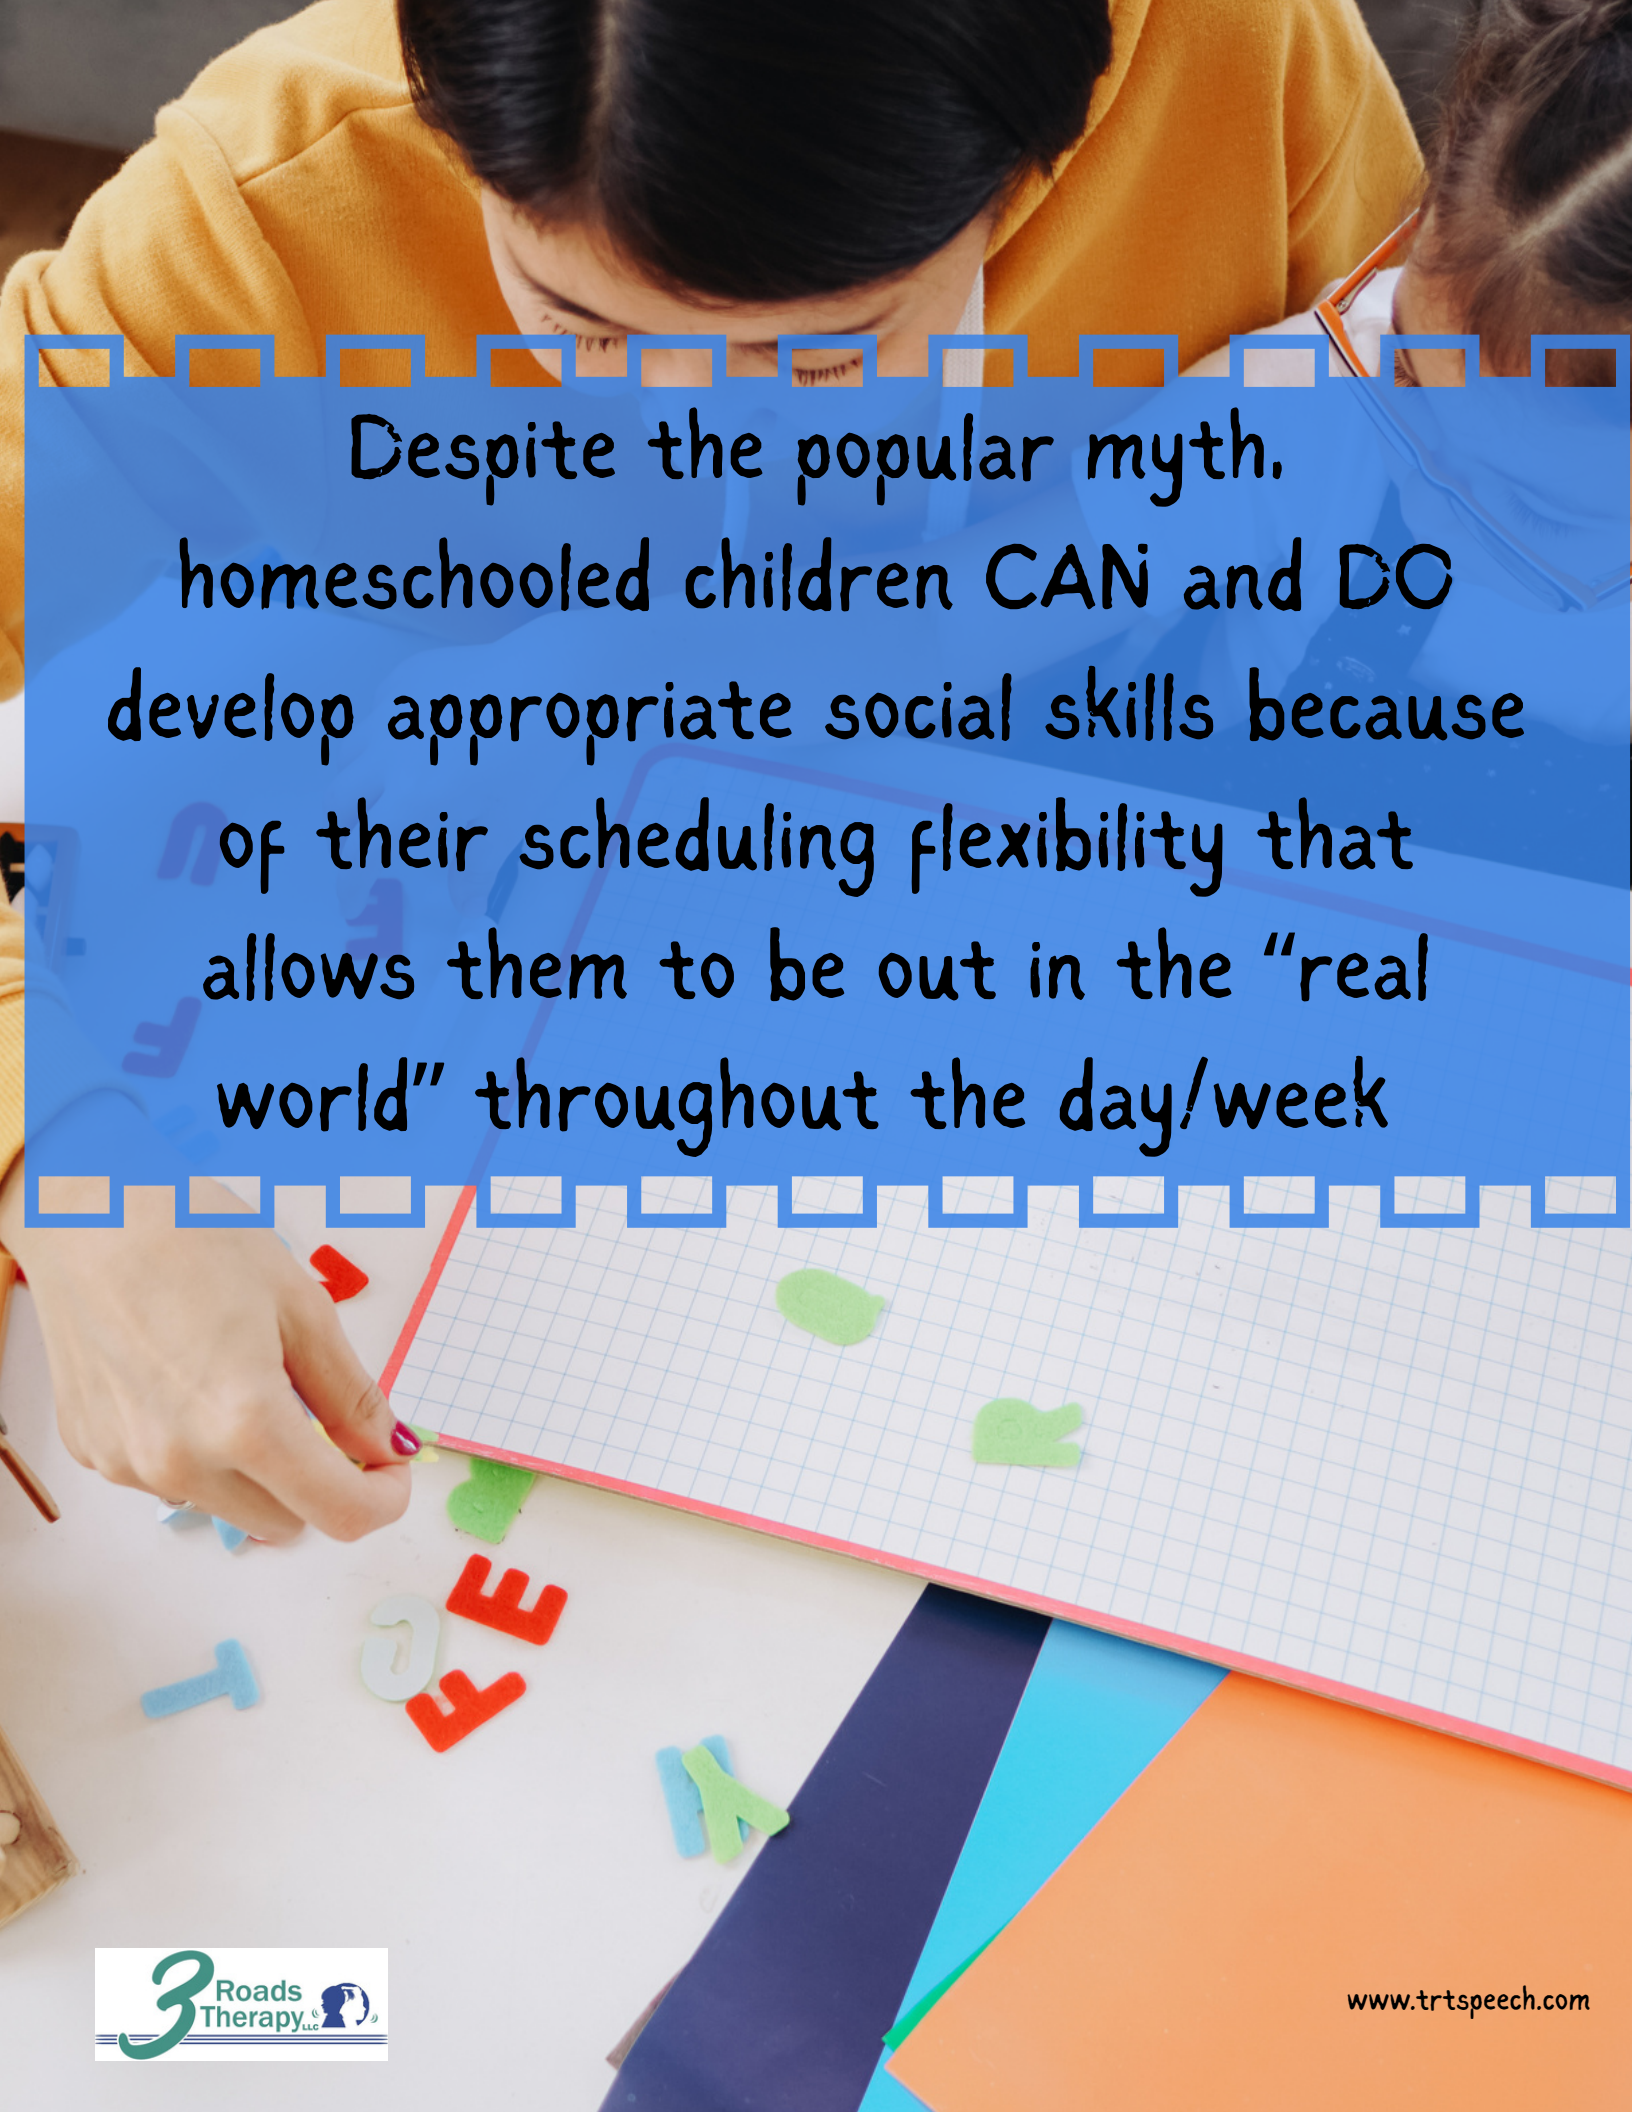

A child with dark hair, wearing an orange hoodie, is focused on a craft project. They are using their hands to place colorful letter cutouts (red, green, blue) onto a piece of white graph paper with a pink border. The background is a soft-focus image of the same child and their work area. The text is overlaid on a blue semi-transparent banner that has a decorative white dashed border at its top and bottom edges.

That means, we support children
who attend public schools, private
schools, homeschool, and any
combination of these options.

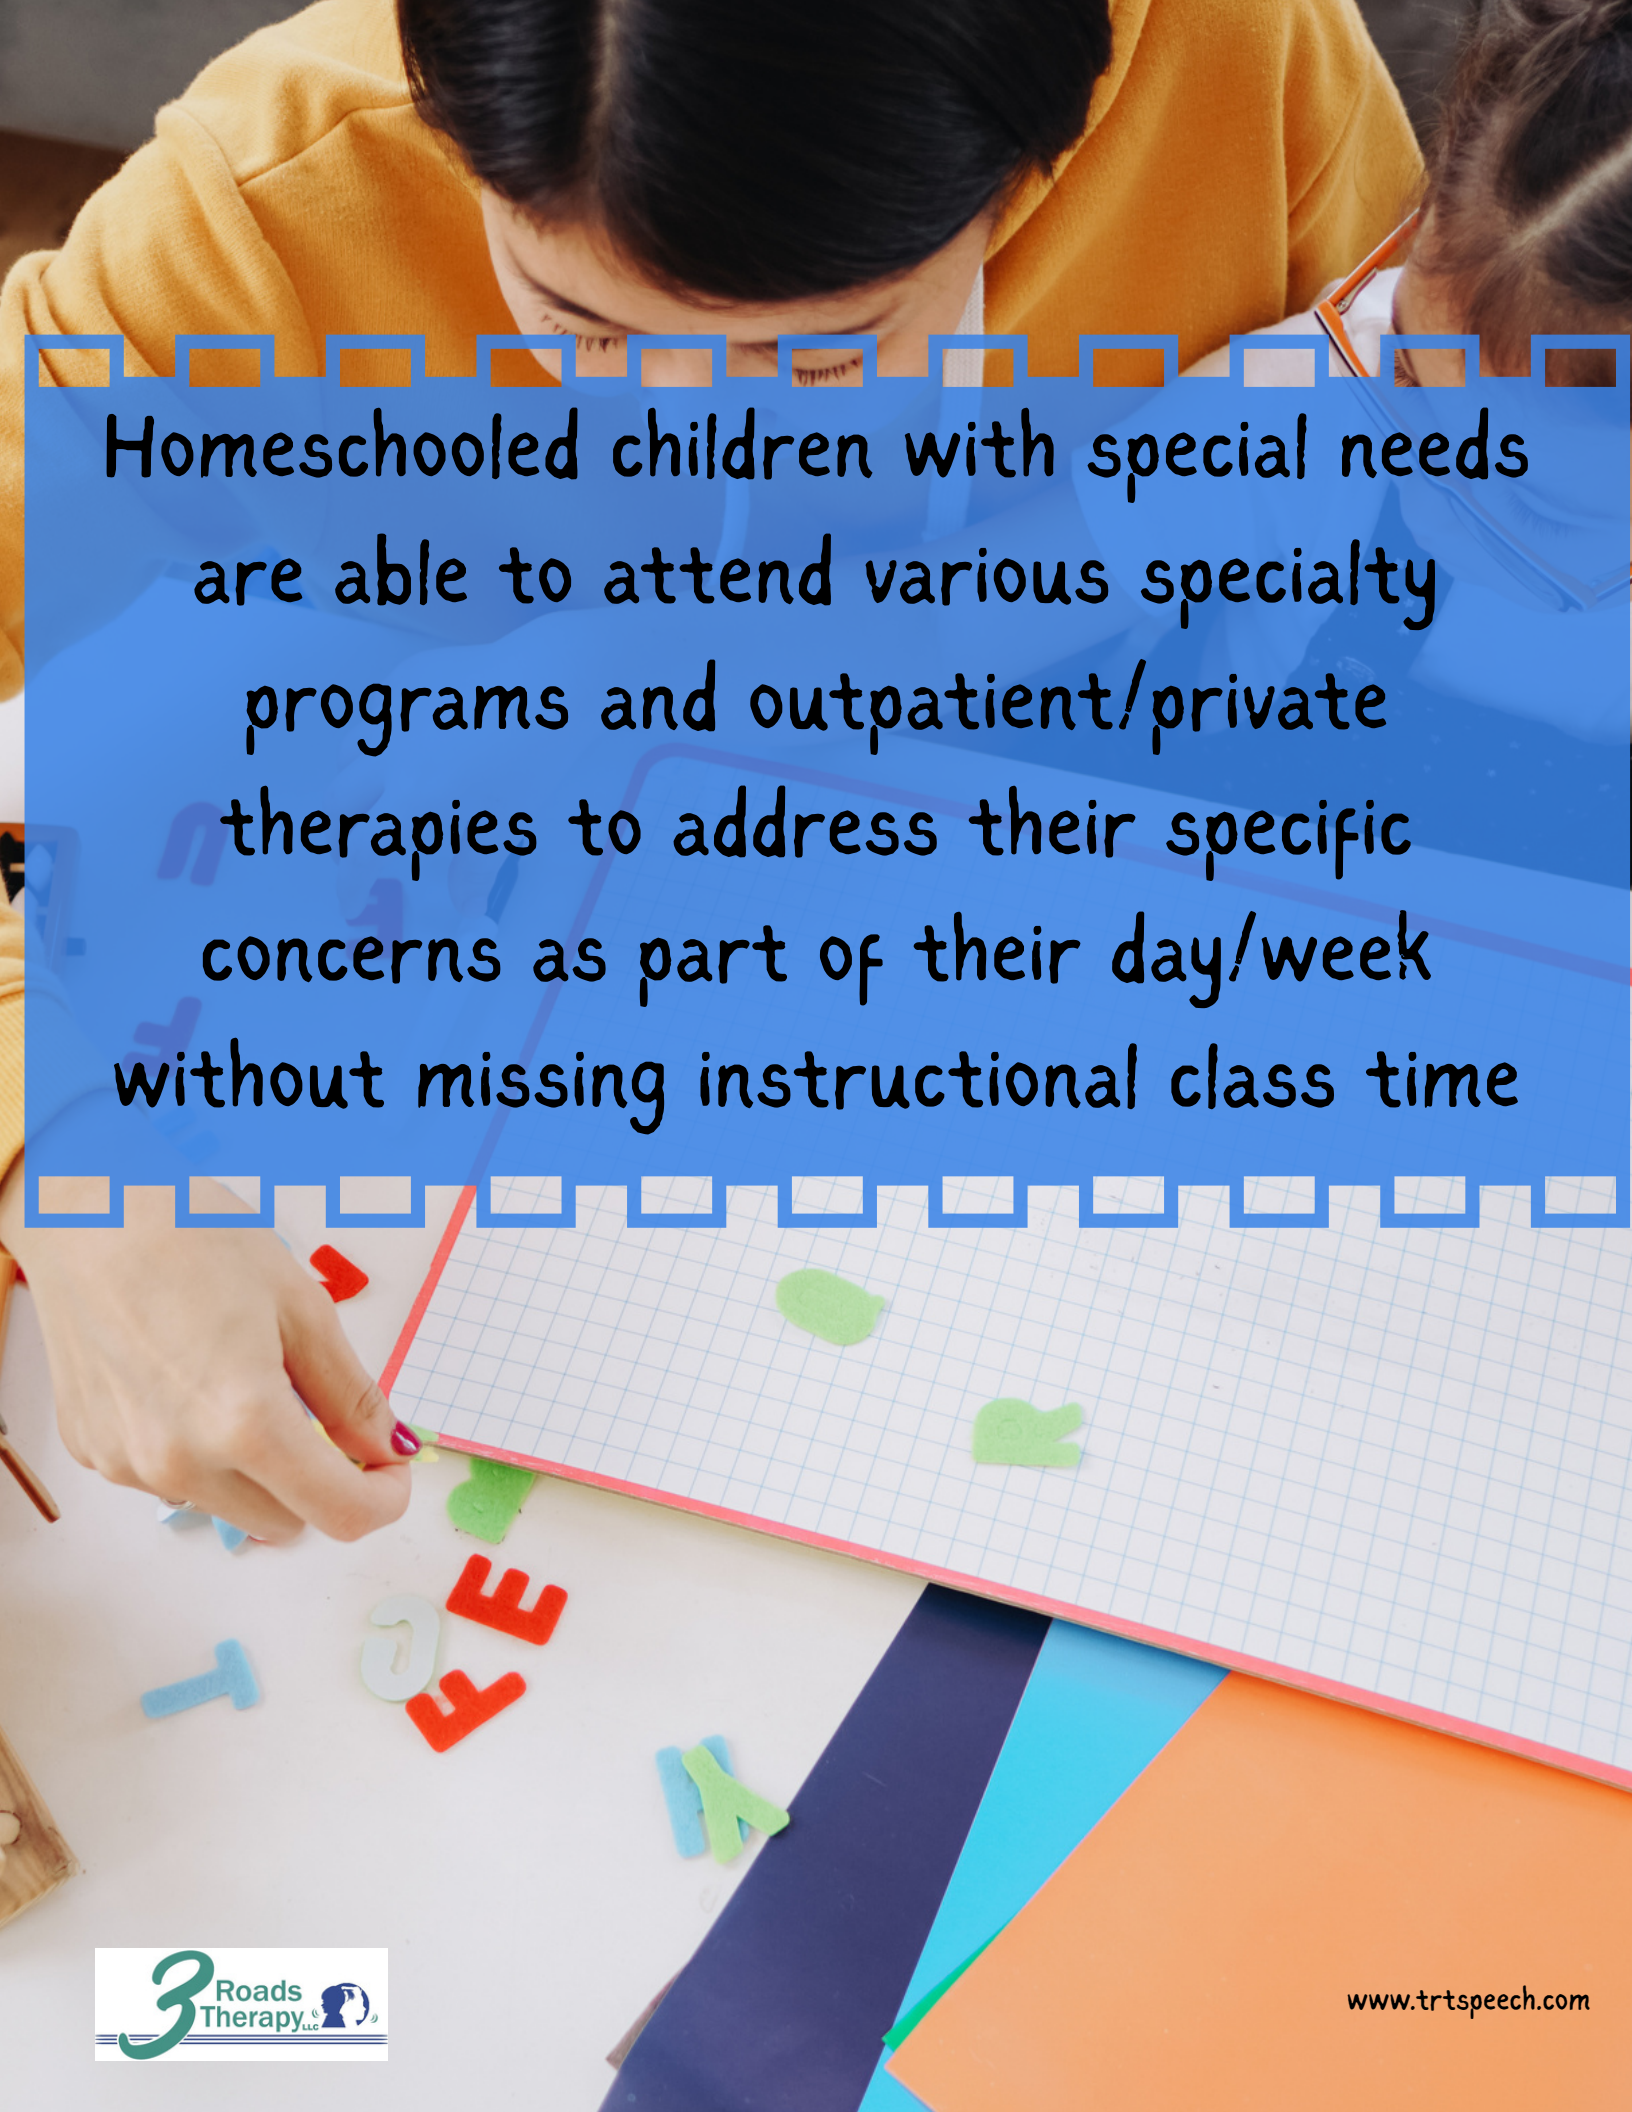

Your child may benefit from the 1:1
attention homeschool provides.

And there are so many different
curriculum options for a wide variety
of ages, grade/skill level, and subjects

A child with dark hair, wearing an orange hoodie, is focused on a craft project. They are using a piece of white graph paper with a pink border. Various colorful foam letters (red, green, blue) are scattered around the paper. The child's hands are visible, one holding a small yellow object. The background is slightly blurred, showing more of the child's work area.

Despite the popular myth,
homeschooled children CAN and DO
develop appropriate social skills because
of their scheduling flexibility that
allows them to be out in the “real
world” throughout the day/week

A child with dark hair, wearing an orange long-sleeved shirt, is focused on a craft project. They are working on a white sheet of graph paper with a pink border. Several colorful foam letters (red, green, blue) are scattered around the paper. The child's hands are visible, and they appear to be using a small tool to work with the letters. The background is slightly blurred, showing more of the child's shirt and some other materials.

Homeschooled children with special needs are able to attend various specialty programs and outpatient/private therapies to address their specific concerns as part of their day/week without missing instructional class time

We are here to support you this school year!
